

'93 S/M TAROT

Greetings!

DO WHAT THOU WILT SHALL BE THE WHOLE
OF THE LAW

Six months since the launch of our previous product we are now pleased to announce the launch of our next product, the eagerly anticipated 93 S/M Tarot Deck.

It has been a long time coming, but we are now finally putting the finishing touches to the proofs and can honestly say the end result far surpasses our expectations. We believe you too will be surprised by not only the quality but also the ideas behind the deck as a whole.

We have, however, reserved a very limited number (11 copies only) to offer to our loyal customers and friends on a first come/first served basis. This edition differs in that it contains one additional colour (red) to signify blood. The remaining 100 copies will be available to all and in high gloss black and white. This edition still looks magnificent in duo-tone and should not ruin any appreciation.

(See the accompanying plates for examples.)

The 93 S/M Tarot Deck is not just a deck used solely for divinatory purposes, it is the embodiment of a unique system, a visual representation of the Double Current. This outstanding deck covers every single aspect of the current and its transmission into the human life-wave.

There is no other deck like it on the market exploring themes hitherto considered 'bizarre', 'weird', 'obscene' or even 'taboo.' Nothing is left untouched in its endeavour to conceptualise the impossible and disseminate it with clarity and understanding. Be warned; it is not for perverts, nor does it contain any scenes of penetration one would immediately link with its erotic content. It touches on every sexual act other than the ordinary (more often colloquially termed 'vanilla sex') and boldly presents them through finely detailed and vivid illustrations.

Whereas the traditional, standard decks contain a total of seventy-eight cards, this deck differs in that two more cards have been added to the Atus of the Major Arcana. This has been done in order to fulfil certain criteria and complete the Major Arcana so that it acts as a centre-piece around which the cards of the Minor Arcana revolve. The latter have now been replaced with new symbolic weapons and attributions and are presented as four angles of approach to inner reality. Thus, all the cards have been changed in accordance with the current informing them. There is, however, one exemption to this revision. The Atu entitled

'Death' retains its traditional title for Death presides over all genuine rites of S/M.

Ideally, this deck is not suitable for beginners, or those who have had little experience of working with the 93 Current. It should only be used by those who fully accept the principles of *AL* (as embodied in Liber OZ (Revised), our Product 1.25) and for those would like to move into other areas and enhance their own understanding of themselves and their tendencies towards the practises of S/M.

It is a powerful deck with a message that is profound in its sublimity:

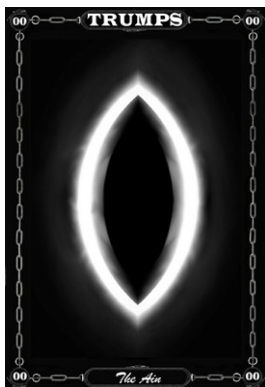

WE ARE ALREADY GOD!

The 93 S/M Tarot Deck seeks to demonstrate this truth.
